

Your Health This Winter

With cooler temperatures, shorter days and the flu and cold season, winter may bring changes to our health. Many of us may find it hard to get enough physical activity. The snow and ice can create hazards that can make walking, playing and working outdoors difficult. Many of us will come down with the flu or catch a cold. Throughout the winter, it is important that we continue to stay active, eat healthy, and take care of our families and ourselves.

Learn about staying healthy and safe this season.

Be Prepared

PreparedBC is British Columbia's one-stop shop for disaster readiness information. For tips on seasonal readiness, how to prepare an emergency plan and what to include in an emergency kit, visit [PreparedBC Public emergency preparation and recovery](#).

Emergency Shelters

Emergency shelters provide a temporary place to sleep, eat and wash for anyone who is homeless or at risk of homelessness. Some shelters may offer additional services such as meals, secure areas for belongings and a resource room with computers, phone or TV. Access to medical support, support staff and individualized help from a caseworker may be available. Find emergency shelter information and resources, including extreme weather shelters here:

- [BC Housing's Shelter Map](#)
